

MockMind AI Project Report

Introduction

MockMind AI is an AI-powered interview preparation and career readiness platform developed to help students and job seekers improve interview performance through resume analysis, AI mock interviews, skill-gap analysis, performance tracking, and career guidance.

Procedure

1. Open the website.
2. Sign up or log in.
3. Upload a resume.
4. Review AI resume insights.
5. Choose interview type and role.
6. Attend the mock interview.
7. View the AI performance report.
8. Track progress on the dashboard.

Output

The platform delivers a complete interview preparation workflow with interactive pages, sample AI feedback, performance analytics, and career recommendations in a professional interface.

How MockMind AI is Different

- Combines resume analysis, mock interviews, and career guidance in one platform.
- Provides personalized AI-style feedback.
- Includes skill-gap analysis and progress tracking.
- Modern, responsive design suitable for students and job seekers.
